

Karndean
Designflooring

Karndean Gluedown

Your **Design**flooring journey starts here

Why Karndean?

At Karndean, we see flooring differently.

We travel the world in our quest to bring you exceptional floors that inspire and delight. From the ancient forests of Europe, to the remote Australian outback and beyond, we seek out expressive and intriguing forms in the natural world to influence our unique floor designs. By combining these original features with cutting edge design, we create simply beautiful floors that you'll love for a lifetime.

From *our* home

It all began in 1973 when a former flooring installer created a small family business from his family home.

With the belief that luxury vinyl flooring shouldn't just be practical, it needed to be beautiful as well, Karndean was formed. The team set out to travel the world, seeking inspiration from natural materials for what now are the most realistic luxury vinyl flooring products on the market.

The Karndean team worked out of that house for several years with the family's trusty dog, Smokey, the Great Dane who is still present on Karndean's logo today. For the family and Karndean's early employees — many who are still working with us today — these years bring back many fond memories.

Now stretching across the globe, beyond the walls of the original house, the Karndean family and employees continue to move forward with the same passion to deliver beautiful, innovative designs for your home.

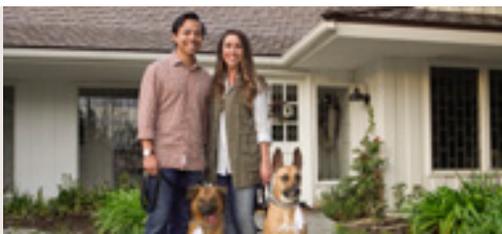

to *your* home

Designing your home can be overwhelming. There are many elements that must fit together, from furniture to flooring, to fixtures and everything in between. Where to begin?

We begin a new design with an inspiration, and we are most inspired by nature. What's your design motivation? Is it aesthetic, such as a throw pillow or the perfect paint chip? Or is it lifestyle, a place where you can dance in your pajamas and your babies (both two- and four-legged) can roll around and play?

No matter what drives you, Karndean was created with your needs in mind. We see flooring differently and by combining our original features with cutting edge design, you can create a simply beautiful floor that you will love for a lifetime.

Our simple method will help you navigate the selection process and design your perfect floor, taking you beyond picking a colour and measuring the room. Let's get started!

personalisation

Create a floor that's unique to your home by adding a border, feature or design strip. Each range has a wide selection of complementary effects to choose from.

solid and seamless

No expansion gaps and no quarter round. Gluedown planks allow you to have a clean look from the front door to the back with no expansion gaps or transitions.

Why Gluedown?

The beauty of Karndean is that you can take any of our products and, with a little imagination, create your own design within minutes.

your floor, your way

Choose a laying pattern for your space that accentuates the designs and elements around it. Laying your floor in a herringbone is a great way to make your space not only feel bigger but more elegant.

texture and authenticity

Our original textured emboss, hand scraped finishes and wide bevels make our gluedown products the most authentic replication of natural products.

LIFETIME WARRANTY

family friendly

Karndean floors offer kids a safe and comfortable space to play, and parents a durable, easy-to-clean surface.

Designed to perform

Dish it out. Our floors can take it.

VGW93T **Hessian Oak** | DS06 Chocolate 10mm | DS01 Vanilla 3mm

pet friendly

From muddy paw prints to household accidents and anything in-between, Karndean floors are designed with pets in mind. Karndean's surface protection system works as a barrier against scuff marks and stains from our excitable furry friends.

waterproof

The product's impervious vinyl backing helps ensure that no moisture gets through the floor.

VGW42T **Jatoba**

LIFETIME WARRANTY

quiet

Karndean flooring is quieter underfoot than natural wood and stone products. It will help to absorb sound and reduce the pitter-patter of paws and high heels across the floor.

Designed for **comfort**

Warm, soft and quiet.

KP105 White Painted Pine

warm underfoot

Our products are softer and warmer underfoot than natural wood and stone flooring. For extra warmth, Karndean is easily used with underfloor heating systems.

CER13 **Eisen** | DS15 Clay 3mm

LIFETIME WARRANTY

durable

All Karndean products carry a lifetime residential warranty. They won't splinter or crack, which means they will carry on performing no matter what life has to throw at them. With many accidents caused by slips and trips, Karndean also helps to avoid trip points and slippery surfaces with commercial grade slip ratings.

Designed with you in **mind**

Practical flooring built to last.

CER20 Cambric

environmentally friendly

Karndean is fully certified to Global GreenTag™ and our adhesives are free from harmful emissions. Ensuring the lowest impact on the environment, this certification means that all our products have been assessed and certified to comply with standards for low-omitting volatile organic compounds and indoor environmental air quality.

low maintenance

Designed for a long, low-maintenance life. Our floors have no grime and dirt traps, unlike many of the materials it faithfully replicates.

KP94 Pale Limed Oak | KP105 White Painted Pine

Creating *your* perfect floor

It's not just the floor you choose
but the direction you lay it that
makes a lasting impression.

Meet Katy

Katy began her Designflooring journey on karndean.com but you can start right here with this book. Find out how she completed the buying process from planning to installation day.

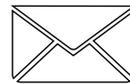

Use Katy's process to inspire *your* own

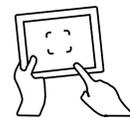

Plan your design

Katy created a moodboard on [karndean.com](https://www.karndean.com) and bookmarked a variety of products and designs for reference.

Request samples

Her samples arrived in one week (so will yours!) and then she chose her favourite swatch.

Imagine your space

Katy uploaded a photo of her space to [karndean.com/floorstyle](https://www.karndean.com/floorstyle) to see how RL21 Glacier Oak would look and was inspired to design with multiple laying patterns.

Visit your local retailer

Katy booked a design consultation at her local retailer to see the colour in a larger format on Karndean displays. She got some feedback on how her chosen design can work in her home, and together with her retailer created something personalised.

Katy's process

Katy has an open concept town home, she is very trendy and wants a floor that looks unique and is personalized for her. Find out how she does this with Karndean.

Katy's Checklist

Choose your room

Bedroom, Living Room

Design your space

CHOOSE YOUR CUSTOMIZATION

- Pattern
- Design Strip
- Border

Katy chose to do a straight lay in a large plank for her living room, and chose a small plank parquet look for her bedroom. This created continuity through her home, while the change in laying pattern indicated you were in a different room.

For added personalisation, Katy chose to add design strips. She framed her living room with a custom tramline border she won't find in her neighbours home.

Choose your look

WOOD OR STONE

- Wood
- Stone

Katy was looking to add warmth to her home and felt wood was the best way to do this. She wanted a light toned floor to achieve a scandi style look.

Pick your colour

CHOOSE YOUR DESIGN

Katy likes a floor with variation to create interest and be the perfect base for her decor. She classifies her style as clean and inviting and thought Glacier Oak was the perfect fit.

Design *your* space

HERRINGBONE STONE

For this space we chose to lay the floor in a herringbone pattern. As you can see the tiles are pointing both into the kitchen and towards the living room. This helps to draw guests into the room in both potential directions of travel.

BORDER

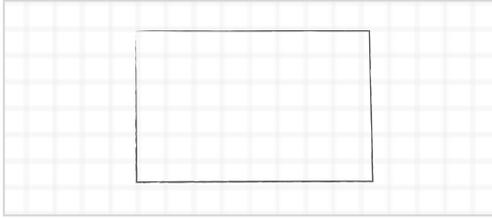

Knowing that we are not updating the adjoining rooms or hallways, and wanting to create separation from the kitchen to the living area we added a border frame the room. A plank border helps to zone each area and frame the newly renovated room.

PLANKS ON A 45°

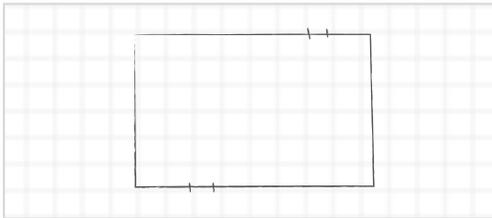

We chose to lay the planks on a 45 degree angle as we knew people would be traveling into the living room both from the kitchen and the back door. No matter your entry point you are still being drawn into the room.

Karndean Process

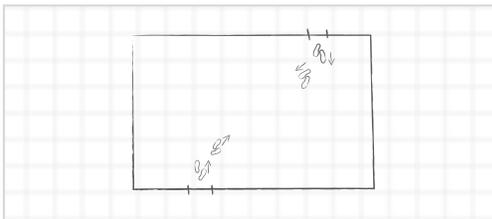

What's the shape of your space?

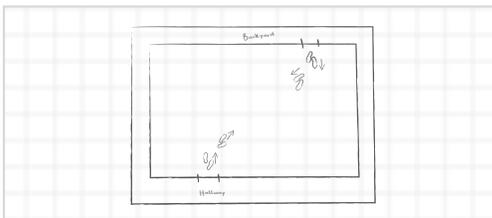

Where are the entry points?

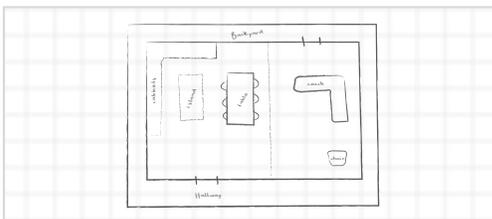

How do you enter the room?

Are you updating rooms around it?

Is there any furniture that you're keeping in the renovation?

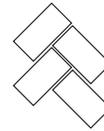

Laying Patterns

Remember to ask yourself questions like: is it an open area? How will the flooring transition from one room to another? Should I use wood, stone or a combination? To pattern, or not to pattern?

EW12 Vintage Hickory

BEHIND THE DESIGN

Hickory

As a slow-growing wood, natural hickory takes at least 40 years to mature and can live up to 300 years. Our hickory designs expose a beauty only visible with age, developed from boards recovered at a midwest lumber yard. These logs were sawn using a wide circular saw blade that inspired the emboss created to give the planks a genuine subtle cross-sawn appearance and texture.

RP101 Beach Driftwood

RP100
Coastal Driftwood

RP101
Beach Driftwood

BEHIND THE DESIGN

Driftwood

This design mimics the gentle, sea-worn features of reclaimed driftwood. Inspired by driftwood found on Fraser Island in Australia, the aged inspiration wood was roughly sanded and cross sawn, giving the final product the rustic look the designers were going for. The combination of saltwater and high winds means that the natural tannins and nutrients are mostly drained from the wood before it's found on shore as driftwood full of unique character — all of which we've been able to capture in our Coastal Driftwood and Beach Driftwood planks.

BEHIND THE DESIGN

Redwood

The original inspiration for these three Van Gogh planks was a reclaimed railroad tie. The tie was made of American Redwood, the tallest living trees on earth which are found in California along the Pacific Ocean. Known for their impressive resistance to decay – hence their use as railroad ties and trestles – many of the old ties have been repurposed and reused as steps, house beams and furniture.

BEHIND THE DESIGN

Walnut

Walnut is a sought after look but impractical for most project demands, because of the cost and durability. Our designers hand selected nature-grade American black walnut boards in 6" formats to create these looks. The beautiful warm tones are showcased in the natural design for a deep and rich looking floor. Additional colourways were explored to fit with interior design colour forecasts.

ST17 Honed Oyster Slate | DS12 Concrete 3mm

BEHIND THE DESIGN

Slate

Sourced from quarries located in the heart of England's famous Lake District, these designs were created from formed volcanic rock dating back 300 million years. Only once a year, dynamite is used to extract slabs, which are then manually removed from the quarries. Two designs were created, one a ground and polished design with an even finish, the other exposing the natural split in the layers of the slate.

How to use design strips

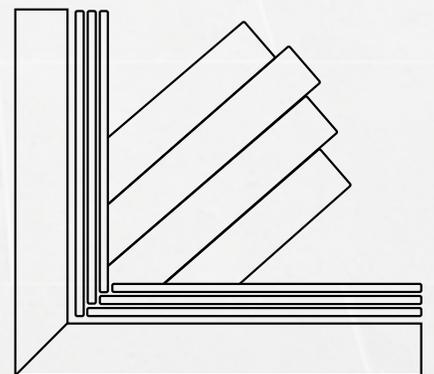

GROUT YOUR TILES

Design strips don't stain or crack making them the most low-maintenance grout on the market. Choose any design strip colour for your grout to match your tile or plank.

BUILD YOUR OWN BORDERS

Layer design strips to create your own customized border. Combine different design strip colours to tie in other elements of your home to your flooring, like your countertop or furniture.

CER17 Drift

Inspired by the classic structure and timeless appeal of limestone, Drift reproduces the grain and fossilisation of the natural stone in a far darker palette. The wide bevels of Da Vinci emphasise the rectangular shape of these tiles as the light falls across them. Design strips can be added to introduce a more traditional tile look, as seen here.

Design Strips

Create a space that is unique to your home by adding our design strips

Choosing design components

DESIGN BORDERS

We offer a wide variety of border designs in a selection of colours. These designs often feature two colours, one in the same as the main floor you've chosen, which acts as the background of the design, and another contrasting colour which is used in the main pattern.

Some products have multiple corresponding borders available, so use the colourful range key and product code listings on the following pages to discover all of your options.

Don't worry if you can't find a pre-designed border to match your chosen floor; we also offer a custom design service if you would like a design in a colour not shown.

CER16 **Sable** with Davyne Border

Inspired by the classic structure and timeless appeal of natural limestone, Sable provides a deeper brown tone than many traditional limestone products. Swirling patterns mix with plainer elements to create an intriguing tile that acts as a neutral yet interesting base for your interior. Add our new Davyne border to frame the floor around the perimeter of your room and add grout strips between tiles for that authentic stone look.

Design Borders

Design features

DESIGN FEATURES

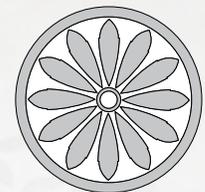

We offer eight pre-designed features that can be combined with the majority of our floors to add a statement centerpiece to any room.

CUSTOM DESIGN FEATURES

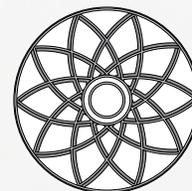

If you're looking for something a little bit different, you can design your own unique feature. Take a sketch of your idea to your nearest retailer for help creating a truly custom floor for your home.

Nexus

CER20 **Cambric** with Kousa Border

Inspired both by woven strands of fabric and the effect of poured concrete, Cambric is one of three Da Vinci tiles that combine the subtlety of design with soft colour hues to create a perfect backdrop to any interior. The cool gray tones of Cambric imitate a modern, poured concrete look without the coldness of the original. Add our new Kousa border for a modern twist to frame the floor around the perimeter of your room.

Pick your favourite

Choose your favourite from one of our standard feature designs. Or draw your own and send into our team.

Pick your colour

We recommend you make the background colour of your chosen feature the same as your floor, then choose remaining colours to coordinate with the finishes in your room.

Decide on size

You can select the size of your feature to fit perfectly into any shape of room. Our features come in a standard 3 foot size, but can be scaled up or down to suit. Talk to your local retailer who can advise you on getting the right size for your space.

Formats Explained

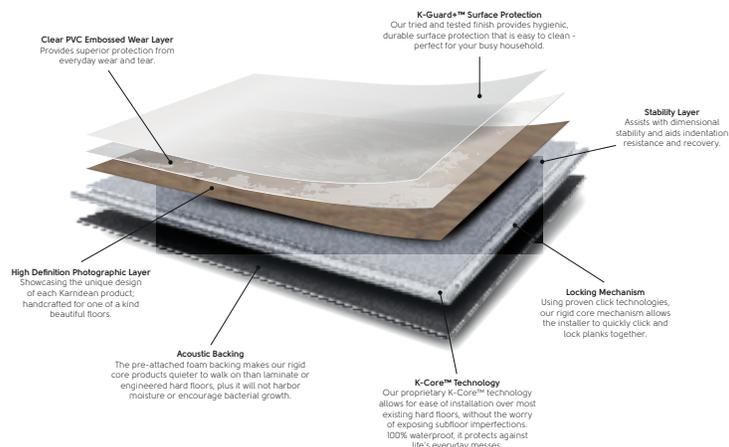

KARNDEAN GLUEDOWN

Our gluedown floors not only look authentic but allow for the most customization. From the distinctive texture of handscraped hickory to the intricate patterns of quarried stone, each floor mimics its natural counterpart. Gluedown floors can be installed in multiple laying patterns and be paired with design features that allow for personalisation, so your personal style can shine through. This brochure is dedicated to our gluedown offering, if you are in need of a solution floor check out our additional product lines outlined below.

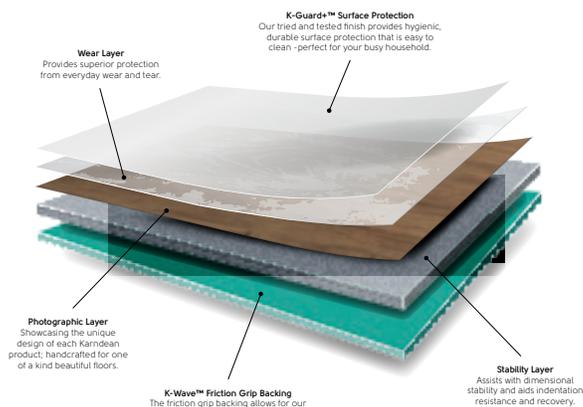

KARNDEAN RIGID CORE

Rigid core is a type of floating floor that clicks and locks into place, no adhesive necessary. Rigid Core can be installed over most existing hard floors, meaning less upheaval in your home during installation. An ideal alternative to laminate and engineered hardwood floors, rigid core offers the same realistic look, but with the durability and waterproof qualities of luxury vinyl. Learn more in our Rigid Core Brochure.

KARNDEAN LOOSELAY

Featuring our K-Wave™ friction grip backing that holds the product in place, Karndean LooseLay creates a strong bond to the subfloor using a combination of weight and friction, with minimal adhesive required. Perfect for temporary and permanent use, Karndean LooseLay is ideal if you are interested in changing out the floor frequently or a permanent floor that reduces noise transfer to rooms below. In addition, it's quick and easy to install and can be laid over most existing hard floors. Learn more in our LooseLay Brochure.

DISCLAIMER

Colour & Pattern Reproduction

All our products are inspired by things we have seen in nature. Just as variation in both colour and detail are part of the beauty of nature so too are some of our designs. This means that with some of our products you will see natural variation when your floor is laid.

We are continually developing new ideas and improving on our existing designs. This does mean that sometimes products are withdrawn at short notice. Karndean Designflooring owns all its designs and are protected by copyright.
